## NJFCC CITATION

The New Jersey Federation of Camera Clubs presents an honor, the NJFCC Citation, to those who have advanced photography in the State of NJ. The Federation has established the policy of awarding public recognition to individuals who have made major contributions to the advancement of the art and science of photography. This award is identified as the NJFCC Citation and it is the highest individual honor bestowed by the Federation.

The Citation Committee consists of Nick Palmieri, Chair; George Hall, NJFC; and John Sandstedt, NJFC. Together with Roman Kurywczak, NJFC, we're working to get the Application and Endorser's Form revised and onto the web site as soon as possible.

The deadline for receipt of the proposer's Application and Endorser's Forms is February 15, 2014. The award will be announced at Photorama 2014

## Roamin' with Roman Photo Tours

Roamin' with Roman Photo Tours runs instructional small group tours and workshops that cater to photographers who don't want to get lost in a crowd!!!

When comparing prices, remember that my tours include lodging (based on double occupancy) and transportations from the departure point.

I run tours to Arches, Canyonlands, Monument Valley, Zion, Bryce, Yellowstone, Grand Tetons, Florida for birds, Iceland, Tanzania, and more! See the schedule & galleries on my website for all the details and dates.

I personally lead all my tours and workshops. I take only 4 participants on my US based tours to ensure a more intimate teaching and learning environment. This small group size also gives me greater schedule flexibility. It allows me to modify the itinerary instantly, even accommodations, as weather or shooting conditions change. No other photography tour company can say that!

## FAKING IT

On October 3, 2013 the Staten Island Camera Club will be hosting Keynote Speaker AD Colman, key note speaker for the exhibit "Faking it." The exhibit was presented at the Metropolitan Museum of Art. We will be talking about the history of photo editing. The exhibit traces the history of how many of the photos, that people have seen and thought were done in the camera, were actually constructed in the darkroom from a few to many original photos. It will show those present that anything was possible in the wet darkroom days as it is now. Then, it may have taken some time to create a believable image; today it takes less time for the same incredible creations. It answers the question how much is too much in reality whatever it takes to get your point across should be done.

There will be ample time for questions, also you can Google the exhibit and see some examples.

The presentation will be made the Harbor Room in Snug Harbor at 8:00 PM. Members of the Federation Clubs are invited to join us.
